

Bildungslandschaft Altstadt Nord (Cologne)

1st prize. The PlanSinn & feld72 team emerged as winners in an urban planning workshop procedure with preceding application process for the development of the Bildungslandschaft Altstadt Nord educational campus in Cologne.

Following a cooperative procedure lasting several years and involving five educational institutions in Cologne's historic old town, ARGE feld72/PlanSinn emerged as the winner of the workshop procedure, gaining the mandate to draw up a framework urban development plan. Upon conclusion of a planning advisory council procedure in 2009, the City of Cologne in 2010 adopted the urban development framework, which creates the basis for the integrated development of the Altstadt Nord educational campus.
