

Sustainability Action Days 2013

Involving an array of partners from civil society and the public and private sectors, the Sustainability Action Days aimed to raise the global profile of activities and actors in the field of sustainable development in Austria.

The week-long Austria-wide Sustainability Action Days were held for the first time from 4 to 10 October 2013, encompassing 250 events covering 23 thematic fields in 9 federal provinces and 115 municipalities. The initiative was supported by 30 partners and 42 prominent sustainability advocates. PlanSinn moderated the development process for the Sustainability Action Days 2013, activated and supported the participants and carried out all the associated PR work (media liaison, website and social media).

2013 - 2014
