

Walk21 Vienna 2015 Conference - stepping ahead

Walk21 champions the development of healthy, sustainable and efficient communities where people choose to walk. Through the conference series and the International Charter for Walking, Walk21 are realising a vision to create communities where people want to and are able to walk as a way to travel, to be healthy and to relax. The Walk21 international network seeks to support and inspire professionals, politicians and the community to evolve the best policies and implement the best initiatives that create and promote environments where people choose to walk.

The 2015 version of the Walk21 conference explored activities and innovations towards the future of our resilient cities and healthy living environments.

PlanSinn supported the organising team by leading the PR & communications agenda of Walk21 Vienna with website development, Social Media Channels and content produced for the conference communications, amongst others.
